

HydraBan® 430

Hydraban 430 provides good water beading and repulsion to paper substrates while being cold set gluable with most adhesives.

Water Resistance Performance - HydraBan Series

Print Receptivity - HydraBan Series

Cold Set Gluability - HydraBan Series

Water Resistance Performance - Common Michelman Products

Where Utilized

HydraBan 430 is designed to be applied both prior to corrugation or on the corrugator and by flexo. It is intended to be used for applications where water repellency is needed.

Food Contact

Ask your Michelman representative for a Food Contact Data Sheet, which lists the specific compliance details for HydraBan 430.

Repulpability/Recyclability

Paper-based packaging materials coated with HydraBan 430 are typically repulpable and recyclable. Specific packaging materials handled at individual mills should be tested to confirm performance.

Gluability

HydraBan 430 is gluable with both hot melt and cold set glues. Consult your adhesive supplier for the recommended adhesive to use with HydraBan 430.
